

Month

The focus for September promotes awareness of our weather seasons

It is such a relief when Spring finally comes. With longer days and the ability to get out and about, spring flowers and beautiful new foliage on the trees and shrubs, we can all come out of our hibernation and get a bit more active. Spring is a great time to explore nature with your children and many of the activities you will find below are based on the bulbs, blossom and young animals that make their appearance at this time of year. With everything from educational games, to crafts and spring colouring pages, we hope you will find something that inspires you!

Interactive Experiences

Art

- Create a show bag
