

# November 2018 @ KIDZ CLUB

## Reduce, Reuse, Recycle

The children at Kidz Club are becoming eco-friendly aware and how to maintain a sustainable future for everyone. *Reduce, Reuse, Recycle* — Three great ways you can eliminate waste and protect your environment! Waste, and how we choose to handle it, affects our world's environment, so we need to educate children to choose wisely. While being outdoors in the garden it's important to Slip, Slop, Slap and Wrap. During this month we are discussing and share ideas on how to be safe this summer! The children will learn about the importance of sun safety and how to enjoy the sunshine without over exposing themselves to the UV rays.
