

April 2019

Protect our Species @ Kidz Club

Earth Day is celebrated every year on 22nd April to raise global awareness that our planet and the millions of species that we know and love are being destructed and the rapid reduction of plant and wildlife populations are directly linked to causes driven by human activity: climate change, deforestation, habitat loss, trafficking and poaching, unsustainable agriculture, pollution and pesticides to name a few. All living things have an intrinsic value, and each plays a unique role in the complex web of life. We must work together to protect endangered and threatened species: bees, elephants, giraffes, insects, whales and more. This month the children of Kidz Club will learn more about the impacts effecting our environment including pollution, oil spills and deforestation. We will also discuss ways on how we can make simple yet effective change for their bright futures.

Blossoming Butterflies

Environment Awareness month. Activities that help teach the little ones about our planet and how we can converse it. The best way to learn is through play.

Interactive Experiences:

- Post it boxes about the environment
- Flash cards to learn about recognition and enhance memory
- Small group time experiences with songs, stories and felt board investigating our earth
- Sensory experiences using natural materials
- Outdoor experiences to learn about plants, trees, shrubs and how to best care for them
- Collage on ocean/marine life and learn how to preserve it

Terrific Turtles

Friendship and Easter

- Friendship flowers with children's hands
- Cooking little people shapes
- Rolling ball games with groups
- Sing "Ring a Ring a Rosie" in small groups
- Set up a tea party (outdoors) and invite your friends to participate
- Reading books about friendships
- Teaching children diversity and inclusion of all cultures
- Easter egg hunt at Kidz Club

Keen Kittens

Through children interests the Kindy Room will be learning about the Protect the various species in our environment

Interactive Experiences

A variety of different science experiences on the environment eg., coral reef, hot & cold temperatures, learning about bees and life cycle of other insects.

Reading books and discussing about plant and wildlife habitats globally and how we can protect and preserve them.

Having a nature display table with Ipads

Conserving water by

Name the various extinct species
Cooking Easter Anzac Biscuits
Counting, Sorting, Stacking

Special Calendar Dates

Children's Book Day	----- 2
World Autism Day	----- 2
Human Flight	----- 12
Bahsaksi-sikh Festival	----- 14
Nature Play Week	----- 17 - 28
Easter	----- 19 - 22
Earth Day	----- 22
Anzac Day	----- 25

EYLF Learning Outcomes

1. Children have a strong sense of Identity.
2. Children are connected with and contribute to their world.
3. Children have a strong sense of wellbeing.
4. Children are Confident and Involved Learners.
5. Children are Effective Communicators.

Special Events & Performances

- * Gardening Workshop from Fly by Fun booked on Thursday 4th @ 10.30am
- * Dr Quarks Scientific Circus booked on Wednesday 10th @ 10.30am
- * Cool 4 Kids music and movement Easter Show with Bunny appearance booked on Tuesday 16th @ 10.30am
