

June 2020

At Kidz Club

Winter occurs after autumn and before spring in each year.

Winter is caused by the Earth rotating around the Sun once every year. Different cultures define different dates as the start of winter and some use a definition based on weather. The children are once again exploring indoor play and enjoying more art and craft activities, fine motor experiences and our IT educational program. This month's theme is Winter and the children will be learning all about this interesting season including educational science experiences.
"Enjoy the rain and the new lush green life that is all around."

Blossoming Butterflies

The children are learning about the season Winter. We are looking at the changes of temperature and weather conditions.

Interactive Experiences:

- Making season wheels, learning concept is temperature control
- Science experiment **umbrella rain** drops
- Small group time experiences with songs / stories about the weather on YouTube videos
- **Cloud dough** for sensory play
- **Snow man** with paper plates for art and craft
- Science experiments called **laver lamp** to encourage fine motor and creativity

Terrific Turtles

WINTER

Interactive Experiences

- Art activities making penguins and pollard bears
- Science experiment, sensory with ice and vinegar
- Reading books and song on the topic winter
- STEM extending working with colours
- STEM cooking experience with measurements of different ingredients
- Diversity with different cultures exploring how and where they live in the winter months
- Glitter snow flakes art and craft experience
- Group games parachute with rolling balls on top to encourage parallel play and socialisation

Keen Kittens

Through children interests the Kindy Room will be learning about Insects and Bugs

Interactive Experiences

- Sensory table displayed with insects and coloured rice for children to explore and experiment
- Art and Craft going a nature walk to promote inquiry learning and extend STEM learning
- Rainbow volcano science experiment researching volcanos in iPads
- Volcano worksheet for Jolly Phonics doing letter V to promote eye—hand co-ordination
- Group games what the time Mr Wolf to promote gross motor & communication skills
- Dancing to music outside with scarves
- Consultation with the children to plan and build an Obstacle course
- Tracing and writing their names
- Letter of the word worksheets Qu & Ou
- Numerous games through Studyladder

EYLF Learning Outcomes

1. Children have a strong sense of Identity.
2. Children are connected with and contribute to their world.
3. Children have a strong sense of wellbeing.
4. Children are Confident and Involved Learners.
5. Children are Effective Communicators.

Special Calendar Dates

Mabo Day	3
World Environment Day	5
Queen's Birthday	7
World Oceans Day	8
Global Wind Day	15
National Refugee Week	14 - 20

World Environment Day encourages worldwide awareness and action for the protection of our environment. Since it began in 1974, it has grown to become a global platform for public outreach that is widely celebrated in over 100 countries. The theme for 2020 is "Time for Nature"- The foods we eat, the air we breathe, the water we drink and the climate that makes our planet habitable all come from nature.
