

NOVEMBER 2020

PLANET ARK

WASTE AND RECYCLING

The children at Kidz Club are becoming eco-friendly aware and how to maintain a sustainable future for everyone. *Reduce, Reuse, Recycle* — Three great ways you can eliminate waste and protect your environment ! Waste, and how we choose to handle it, affects our world's environment, so we need to educate children to choose wisely. Incorporating the theme of recycling into the teaching curriculum will help educate and inspire children about the environment and their connection to it. Educators teach children that rubbish can't be truly thrown away – it has to end up somewhere, therefore implementing sustainable practices daily.

Blossoming Butterflies

Terrific Turtles
