

June 2021

World Environment Awareness Month

This month at Kidz Club we will be learning about 'World Environment' so we can become more aware of our consumer habits and recognise the changes that need to be made to stop exploiting and destroying our planet. The children will research ways to restore our Ecosystem and this year we kick off a global mission to revive billions of hectares, from forests to farmlands, from the top of mountains to the depth of the sea.

World Environment Day is celebrated on June 5, annually to encourage awareness and environmental protection.

Blossoming Butterflies

Space Awareness. Activities that help teach the little ones about our space and how we can converse it. The best way to learn is through play.

Interactive Experiences:

- Galaxy light to see the stars and planets
- Sensory trays with rice, stars and moon resources to encourage engagement
- Sensory galaxy bags with stars to enhance sensory explorations
- Planet wall to learn about the basic planets
- Day night wheels—sun, moon stars
- Duplo with planets to encourage building and cognitive development
- Touch and feel reading books about the Galaxy
