

NOVEMBER 2021

Recycling

Recycling is a way of extending the usefulness of something that has already fulfilled its initial purpose. A new product can be made out of it, and it will be useful again! Every time we recycle, we save our environment a little more. We cut fewer trees, use less water and energy. All products require natural resources to produce and our growing population is straining our planet with our need for more raw materials. Throughout the month of November, Children and Staff at Kidz Club will be actively participating in gaining insight and practicing various recycling strategies to help reduce waste and support our planet.

Blossoming Butterflies

This month the Baby Room will be focusing on “Things That Grow” as they have shown a growing interest in plants, flowers, animals and birds.

Interactive Experiences:

- Sensory Tub with Flowers, Beans, Scoops and Animals.
- Watering our Outdoor Plants with Watering Cans
- Planting Flower Seeds and watching them grow!
- Bird Life Cycle; Making Feathery Chicks and Painting Nests
- Measuring Children’s Heights and making a Height Chart.
- Art and Craft Collage with Natural Materials (Flowers, Sticks, Leaves etc.)

Terrific Turtles

The Toddler Room will be practising and learning all about Numbers.

Interactive Experiences:

- Number Counting Wall Train; practising our counting at group time
- Sensory Tub Experience with Sand and Hidden Numbers
- Reading the Numeracy Book Series—“I Can Count”
- Number Collage; Art and Craft Materials with Colourful Numbers
- Painting using Number Sponges and Stamps

Kindy Room

Learning about Sustainability and Recycling for the future and for our children of the next generation...

The Kindy Room is focusing on the theme of Space and Planets throughout the Month of November.

Interactive Experiences:

- Sensory Trays with Black Rice, Rockets, Comets, Planets, Stars, Astronauts and Aliens!
- Art and Craft; Aluminium Moon Rock Painting Prints
- Reading Planets and Solar System Books and Songs to recite the order in which the Planets orbit the Sun.
- Tracing and Writing the Names of Planets and other important Space Artefacts
- Science Experiment: Space Rocket with Plastic Bottles, Baking Soda and Vinegar
