2019 ANZAC Day Commemoration

A strong connection exists between Australia and France since 1842.

Today, both governments work cooperatively on important business ventures, including the joint defence project constructing a new fleet of advanced submarines.

French cultural events are presented annually around Australia, and the French Film Industry, its Gastronomy, and the Fashion of France continue to influence a global society.

During my employment as a full time soldier in the Royal Australian Army, I was fortunate to have travelled to France and Belgium to visit the cities that take great pride in maintaining the memorials of ANZAC Troops.

This coming April 25, we have a unique opportunity to view the European ceremonies that are being conducted in these cities shortly after the commemoration at Gallipoli.

Lest we Forget.

This month we commence the second quarter of our French Linguistic Program with the addition of new grammar, and a series of fun, playbased role play activities to consolidate what is being taught during the daily lessons.

Thank you to parents who have purchased the Tintin French language readers to use at home with their children. The readers are available for purchase at Kidz Club Reception.
