Bonjour à tous and welcome to our March newsletter!

The children are enjoying a plethora of fun, play-based French language learning activities including this beautiful colour/number identification art activity. (Pictured above) As well, the French descriptions of our body parts are being revised (see image to the right) a great activity to assist in the consolidation of what is being taught at Kidz Club!

*Autumn is a fantastic season and we have a fun series of French cultural events to present to the children!*

## Upcoming Events

### le 12 mars

We present a fun French puppet making workshop!

### le 19 mars

The children will create their own Bande dessinée! (comic strip)

### le 26 mars

We are pleased to present the children with a fun French biscuit making day!

## More Important News

Our French iPad workstation is used each day offering the children, in small groups, to practice their language whilst enjoying many different scenarios that are included in each of the French language learning apps.

I am currently working 'one on one' with the newest members of the French program to assist them with a smooth transition and it is wonderful to observe the older children in the class assisting the younger children during the daily French lessons.

Parents of children who are participating in the French program at Kidz Club are most welcome to contact me to discuss how you can assist your child's second/third language development in the home.

Meilleurs vœux!

## 2020 Alliance Française French Film Festival

The French film festival is the second largest film festival in Australia and this year's selection of films is simply fantastic!

French couturier, Pierre Cardin is celebrated in a new documentary about his life and contribution to the fashion industry as well as the screen legend, Catherine Deneuve who has a number of films included in this year's lineup.

There are a number of special events that you can be a part of during the festival so be sure to see what's on offer via the event website.
