

# French Linguistic Program

Kidz Club

Ph: 82656605

Web: <http://www.kidzclub.com.au>

*In France, the month of November plays host to a change in the seasons. The children will learn about life in France during Winter, including the fast-approaching festive season!*

## Upcoming Events

### le 5 nov

We present a fun painting workshop in the theme of la bande dessinée!

### le 13 nov

The children will participate in a French cooking activity!

### le 17 nov

We present a fun day of French role-play games and storybook readings!

Bonjour à tous... Welcome to our November newsletter!

The children are learning how to express themselves using the French language with the use of sequential art during storybook readings that commence the daily French lessons. This month, the children will learn about la bande dessinée franco-belge (French and Belgian comic book literature), and create their unique adventure!

## More Important News!

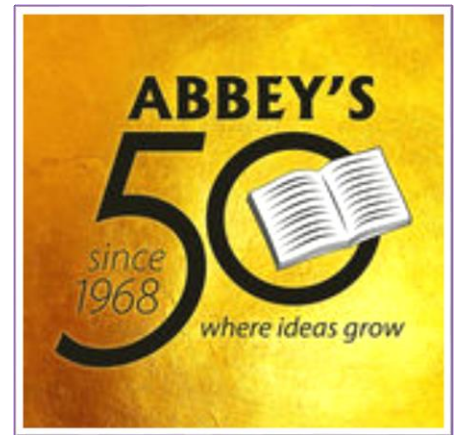

The end of the year is fast approaching which means that I will bid farewell to our older children who will commence the next stage of their education at school in 2021.

The graduating class is displaying great maturity as they continue to assist the younger children that have recently joined the French and Indigenous linguistic program.

The advantages of learning a second/third language during the early learning years are immense, with an increased metacognitive and analytical skill development, and greater self-confidence to name but a few.

Parents who are seeking to know where their child can further develop their French and Indigenous language can contact me at Kidz Club.

### French Book Stores in Australia

Parents who are seeking to purchase French language resources for their children are invited to peruse the websites of Abbey's Language Book Centre in Sydney, and the Language International Bookshop in Melbourne.

Both bookstores have a vast array of titles to suit all ages.
